House 189, College Road, Pakundia, Kishoreganj-2326, Dhaka, Bangladesh

OBJECTIVE

I am looking for a PhD position in a competitive academic environment where I can solve challenges in Machine Learning algorithms, particularly in Natural Language Processing and Computer Vision, contribute to cutting-edge research, and prepare for a career in advanced research in academia or industry.

EDUCATION

Bangladesh University — Mohammadpur, Dhaka-1207, Bangladesh
Bachelor of Science — *January 2020 - December 2023*
Department of Computer Science and Engineering — **CGPA: 3.66/4.00**

Thesis: A Sophisticated Feature Vectorization-Based Machine Learning Model to Identify Fake News in Bangla and English Language.

RESEARCH INTEREST

Machine Learning
Natural Language Processing
Computer Vision
Explainable AI
Generative AI
Multimodal AI

EXPERIENCE

Research Assistant — *May 2023 - Present*
NextGen AI Lab, Bangladesh University. — Mohammadpur, Dhaka-1207, Bangladesh

- Designed and implemented machine learning models for several research projects.
- Collect, process, and analyze data to build machine learning models.
- Conducted Literature Reviews and wrote several Research Papers.
- Served as corresponding author for multiple research papers, handling reviewers' responses and revisions.
- Mentored and assisted three distinct groups of undergraduate students in their research methodologies, project execution, and manuscript preparation.
- Collaborated and coordinated with faculty, researchers, and fellow senior and junior graduate students from different universities and countries.

Md. Sabbir Hossen, Md. Saiduzzaman, and Pabon Shaha. "Attention-Guided Deep CNN for Robust Image-Based Weather Phenomena Classification" *In Proceedings of the IEEE 5th International Conference on Electrical, Computer & Telecommunication Engineering (ICECTE), 2025* [Under Review]

AWARDS & ACHIEVEMENTS

Best Technical Presentation, 27th International Conference on Computer and Information Technology, 2024
1st Runner Up in Project Showcasing, Robo Carnival, BUET, 2023

CONFERENCE PRESENTATION

Presented: "An Explainable AI Driven Machine Learning Approach for Maternal Health Risk Analysis" at ICCIT
Presented: "Jellyfish Species Identification: A CNN Based Artificial Neural Network Approach." at QPAIN
Presented: "Social Media Sentiments Analysis on the July Revolution in Bangladesh: A Hybrid Transformer Based Machine Learning Approach" at ECAI
Presented: A Hybrid Machine Learning Approach Utilizing CNN Feature Extraction with Traditional Classifiers to Identify Strawberry Leaf Diseases" at ECCE

EXTRA-CURRICULAR ACTIVITIES

iTech Expo associated with Techfest IIT Bombay, IUBAT *November 2022*
Presented a project on Remote Control Fire Fighter Robot.
Robo Carnival, BUET January 2023
Presented a project on Green Energy E-Bike.
BEC Robo Mania, BUBT January 2023
Presented a project on an Integrated Smart Home.

PROFESSIONAL SKILLS

Programming Languages	**Python Libraries**	**Software Tools**
Python (Advanced)	Pandas, NumPy	Microsoft Office
C (Intermediate)	MatplotLib, Seaborn	Git & Github
C++ (Basic)	SciKit Learn, PyTorch	Adobe PS
Java (Basic)	TensorFlow/Keras	Mendeley
SQL (Basic)	HuggingFace Transformer	LaTeX

TEST SCORE

IELTS Scheduled for December 25th, 2025
